## FOE PROTESTS ARE ANSWERED

Allied Envoys Reply to German Objections to Economic Terms of Peace Treaty.

## MILITARISM HAS ENDED

Note Declares That Disarmament of Germany Will Relieve That People of an Immense Burden of Taxation.

Paris, May 20.—The Germans probably will have until the end of the first week in June to say yes or no regarding their signature of the peace treaty. The German counter-proposals due this week are expected in French circles to be so elaborate and voluminous that, if submitted by May 22—the time limit for the German reply—the inter-allied delegates can scarcely finish their consideration before June 1.

Paris, May 20.—The German peace envoys have been given the reply of the Allied and associated governments to the German note protesting against the economic terms of the peace treaty as being calculated to cause the industrial ruin of Germany.

The reply is under 11 heads and answers each German contention. It declares that the Allied and associated governments in framing the economic terms "has no intention to destroy Germany's economic life."

Germany Will Play Part.

The report points out that in the reconstruction of world affairs Germany will have her part in the progressive development, but also will share with the rest of the world in the economic losses and disadvantages resulting from the war.

The reply declares that the German note fails to take in consideration the fact that the disarmament of Germany and the end of militarism will relieve the German people of an immense burden of taxation and return to the ranks of useful production millions of men formerly in the army who have been entirely withdrawn from industrial or agricultural activities.

Allies Also Lost Ships.

The Allies' answer to the German complaint that the loss of the German merchant marine will throw out of work thousands of German merchant seamen is that the destruction of merchant ships, chiefly by German submarines, has had the unfortunate effect of limiting the opportunities for work of seamen throughout the world. The Allied powers being the greatest sufferers. It adds that there clearly is no reason why Germany should be exempted from its share of the economic disadvantage growing out of this destruction of merchant ships.

## TRANSPORT SERVICE SPEEDY

Bulk of American Army Will Be Home By July 1.

Washington, May 20.—"At the present rate with which the navy is bringing the army home from France, we will have all the expeditionary forces except 400,000 men back in the United States by the first of July," said Secretary Daniels. "If necessary we could bring back 300,000 of the men remaining in France during the month of July."

## SCORES PEACE CONDITIONS

President Ebert Declares Germany Cannot Accept Terms.

Berlin, May 20.—President Frederick Ebert in addressing a demonstration here, said that Germany would "never sign the peace terms."

The demonstration was in the Lustgarten and was attended by a great crowd. President Ebert described the peace terms as "the product of the enemy's revengeful hysteria."

## TAKES 10,000 ANARCHISTS

Russian General Also Captures Twenty-eight Guns.

London, May 20.—General Denikine, who is personally conducting the operations of his anti-Bolshevik army against the city of Tsaritsyn on the Volga, announces the capture of 10,000 prisoners and 28 guns from the Bolsheviks. This news was telegraphed by the chief of the British military mission at Ekaterinodar.

## HUN WAR LOSSES 6,873,410

More Than Two Million Germans Killed in Battle.

Paris, May 20.—German war losses up to April 30 last were 2,050,460 dead, 4,207,028 wounded and 615,922 prisoners, a total of 6,873,410, according to figures published in Berlin.

Palmer Names Davis Assistant.

Washington, May 20.—Frank Davis, Jr., of Cleveland, was named assistant attorney general by Attorney General Palmer. Charles B. Ames of Oklahoma City was appointed assistant to the attorney general.

JOSE SANTOS ZELAYA

Former President of Nicaragua Dies at New York.

General Jose Santos Zelaya, president of the republic of Nicaragua for 16 turbulent years, died at his New York city home after a long illness. His administration of Nicaraguan affairs was marked with excesses of various kinds, and frequent disputes with the United States, Germany, and England. At one time he said, "I ridicule the United States, laugh at Germany, and spit on England."

## GLASS FILLS VACANCY

Appoints New York Man As Head of War Risk Bureau.

R. A. Chalmers-Jones Succeeds Henry D. Lindsley, Who Recently Resigned.

Washington, May 20.—The War Risk Insurance bureau through which 4,000,000 soldiers or their dependents receive payments of insurance, allotments or compensation, was in process of sudden reorganization through the appointment of R. A. Chalmers-Jones, formerly a New York business man, now a colonel in the bureau's section in France, as director to succeed Colonel Henry D. Lindsley, who resigned in a clash with Secretary Glass, in which he charged the Treasury department with placing restraints on the organization which were making it a "colossal failure."

Secretary Glass in a public statement has made a vigorous reply to Colonel Lindsley's charges and the changes are said to forecast a thorough shakeup of the big bureau which bears a closer home relation to the soldiers than any other agency of the government. Clouds of charges have been hovering over the bureau for months and congressional investigation is expected.

## Rome Welcoming Premier Orlando After He Quit Peace Table Because of Fiume Dispute

When Premier Orlando left the Peace Conference and returned to Rome after President Wilson had declared against giving Fiume to Italy, he was greeted by great crowds. This photograph was taken while his countrymen were welcoming him to the Italian capital. Anti-Wilson demonstrations followed his arrival.

## PRES. WILSON'S MESSAGE TO CONGRESS GIVES MANY TIMELY RECOMMENDATIONS

### NC-4 Left This Noon to Finish Ocean Trip

(By United Press)  
Horta, Azores, May 20.—The American seaplane N. C. 4 left Horta at 12:40 p. m. Greenwich time, or 8:40 a. m. New York time, today. The dispatch did not indicate whether the seaplane would fly direct to Lisbon or to Ponta Del Gada. She is expected, however, to land at Ponta Del Gada.

### NC-4 Makes Another Successful Jump

(By United Press)  
Washington, May 20.—The NC-4 arrived at Ponta Del Gada at 10:24 a. m. Washington time, the navy department was officially advised. The plane arrived in good condition. Commander Read made an average speed of 95 miles an hour over the one hundred and fifty mile jump from Horta where he was forced down by the fog.

### Progressive Senators Introduce Labor Program

(By United Press)  
Washington, May 20.—Simultaneously with the reading to congress today of President Wilson's recommendations for labor legislation, senate progressives through Senator Kenyon announced a program of labor laws to be introduced at once. They enunciated the same principle the president declared must dominate in labor legislation. A partnership in capital and labor in which each share in the profits of the industry.

The first resolution to be reported out favorably by a house committee was the one introduced yesterday by Republican Leader Mann providing for woman suffrage.

President Wilson's message recommends:  
Repeal of the wartime prohibition act.  
Creation of a federal agency of advice and information as a clearing house for suggested improvement in industrial conditions.  
Maintenance of the United States employment service.  
Adoption of the land-for-soldiers bill sponsored by Sec. Lane.  
Legislation to facilitate American enterprise in foreign trade.  
Reconsideration of federal taxes to relieve the burden, particularly on productive resources, making incomes, excess profits and estimates the mainstays of steady taxation.  
Against general revision of import duties but for protection of the American dye industry.  
Adoption of the suffrage amendment.  
Return of the telegraph and telephone lines to their owners under more co-ordinated system.  
Return of the railroads under a more uniform system.

BY ROBERT J. BENDER.

(United Press Staff Correspondent)

Washington, May 20.—President Wilson today called on a Republican congress to legislate this session along lines that will insure greater co-operation between labor and capital.

The outstanding feature of his message, read to both houses of congress, was his appeal that those who do the daily labor of the world "obtain progressive improvement in the conditions of their labor, be made happier, and be served better by the communities and the industries which their labor sustains and advances."

Common Purpose

The new interest between capital and labor, he said, can be made operative and manifest only in a new organization of industry, and he urged business men and workers to "seek and sincerely adopt a common purpose" toward that end.

Regretting his inability to be present and his lack of familiarity with domestic conditions "owing to the 'duty' which keeps him at the peace conference, the president, in making his recommendations, declares they must of necessity 'be only in general terms.'" However, he specifically told congress that he will return the telegraph and telephone lines as soon as the "re-transfer can be effected without administration confusion," and the railroads, he said, will be handed over to the owners at the end of the calendar year.

"It is clearly desirable in the public interests," he said, "that some legislation should be considered which may tend to make of these indispensable instrumentalities (wire lines and railroads) a uniform and co-ordinated system, that those who use them may be insured certain means of country-wide communication at uniform and intelligible rates."

Up to Republicans

These recommendations, however, had been looked for. The promised "surprise" of the message lies in the recommendation to congress to repeal or amend the war-time prohibition act.

By this action the president passes to the Republicans the burden of upholding or rejecting the war prohibition question settled in favor of the "drys" by a Democratic congress.

Demobilization of the army, the president says, has reached a point where the ban on intoxicants can be removed, insofar at least as it pertains to wines and beers.

The president advises against any "general" revision of import duties, but counsels protection for the new American dye industry.

He urges revision of taxes so that the income tax, excess profits tax and the estate tax can be made to "yield constant and adequate returns and yet not constitute a too grievous burden upon the taxpayer."

He urges repeal of many "minor taxes" including "the excises upon various manufacturers and the taxes upon retail sales."

The revision should be made only after a most careful study of the problem, he says.

Land Reclamation

The president would maintain the United States employment service, coordinate the various agencies for conciliation and adjustment, create a new agency to act as a clearing house for ideas to improve industrial conditions and reclaim western lands, in order to help out the general program of making things better for those working and wanting work.

The president did not touch upon his work in Paris except to say that

until he could presently lay the whole matter before congress in complete form.

His sole reference to the league of nations, was to say that, under its agencies of international counsel and suggestion, international problems had been created and it would be advisable to have a national body to do such work for American workers and industry alone.

### British Aviator Hawker Believed to Be Lost

(By United Press)

London, May 20.—Another night was passed without word of Harry Hawker and Mackenzie Grieve, daring British aviators, who left Newfoundland Sunday for England in an airplane. Hope gave way to fear in many quarters that the men have perished. They may have been picked up however.

London May 20.—Neither the admiralty nor the air ministry had received any word from Harry Hawker's Sopwith airplane at two-forty this afternoon.

### Congressman Van Dyke Dies Suddenly in Washington

(By United Press)

St. Paul, May 20.—Congressman C. C. Van Dyke, the only democratic representative from Minnesota in congress, died at 1:30 this morning in Washington very suddenly from ulcers of the stomach.

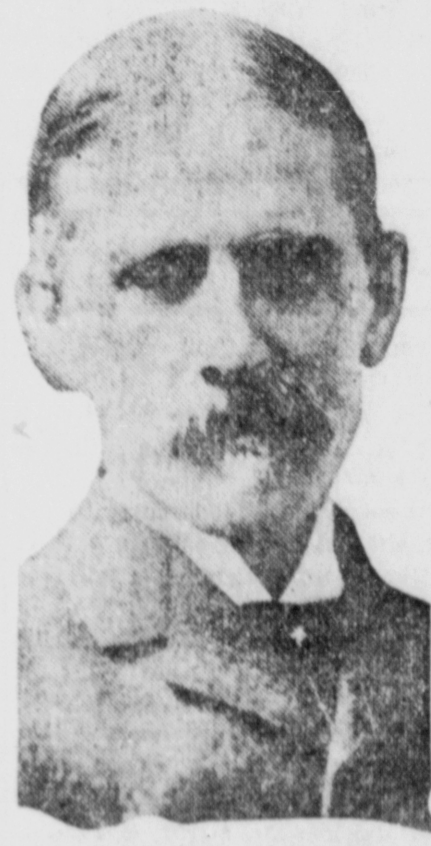

### Fence Marking How Far German Delegates to Peace Conference Can Go at Versailles

When the German delegates to the Peace Conference arrived at Versailles they objected violently to the restrictions placed upon their movements. This photograph, just received in this country shows one of a number of fences placed about the Germans' quarters to mark how far they could go and also to insure them against molestation. Troops have been stationed all around the district, placed at the disposal of the German envoys.

DR. HENRY VAN DYKE

Favors Death Sentence and Commutation for Kaiser.

Sentence of death commuted to life imprisonment was recommended by Dr. Henry Van Dyke, former minister to Holland, for William Hohenzollern, former emperor of Germany, and his murderous clique, in an address before the Sunday Evening club at Chicago.

## BISHOP GREER IS DEAD

Prominent New York Divine Had Undergone Operation.

While in Poor Health for Several Months His Condition Gave Rise to No Alarm.

New York, May 20.—The Right Rev. David H. Greer, Protestant Episcopal bishop of New York, died in a hospital here.

Bishop Greer was operated upon a week ago and his condition had improved steadily until Monday, when his physicians reported he had suffered a relapse.

Bishop Greer's health had been poor for several months, but despite his advanced age—he was 75 years old—his condition had at no time been considered dangerous. He is survived by his widow and daughter, Miss Jean, and by two sons, Laurence Greer and William Greer.

## DECLARES WAR ON RUMANIA

Moscow Says Bolshevik Troops Cross Dniester River.

London, May 20.—Owing to Rumania's disregard of the ultimatum from the Russian soviet government, demanding an evacuation of Bessarabia, a state of war exists between Russia and Rumania, according to a wireless dispatch from Moscow. Bolshevik troops have crossed the Dniester river in the Tiraspol district, where they have defeated the Rumanians and occupied Odessa. Bessarabia is situated on the Dniester river, 53 miles northwest of Odessa. Bender is on the west side of the Dniester and 58 miles from Odessa.

## PREDICTS PLAN WILL BE BEATEN

Senator Lodge Thinks Senate Will Not Accept Revised League Covenant

## WORSE THAN OLD PACT

Foreign Relations Committee Chairman Says Present Draft Is Dangerous to Peace of World and American Rights.

Washington, May 20.—In a statement Senator Lodge, Republican leader and chairman of the foreign relations committee, asserted that the revised league of nations "is unacceptable," and predicted it would not be adopted by a majority of the senate without amendment.

Characterizing the new league covenant, as included in the peace treaty, "as distinctly worse than the old, and more dangerous to the peace of the world and to American rights and interests," Senator Lodge declared that none of the suggestions from the Senate or from Elihu Root had been carried out.

Senator Lodge's statement follows: "So far as I can judge—and I have had conversations with many Senators, including members of both parties—I am satisfied that a majority of the Senate feel very strongly that the league as now presented must receive amendment, that in its present form, without any change, it is unacceptable and would not be accepted."

"To say that the amendments put forward in the Senate and those proposed and formulated by Mr. Root on the suggestion of the State department have been met, is without foundation. Not one of the suggestions of the Senate, not one of the amendments proposed by Mr. Root, has been carried out. Some have been entirely rejected, and where there is an appearance of their having been adopted, examination shows that the new form is distinctly worse than the old, and more dangerous to the peace of the world and to American rights and interests."

No Desire to Delay Treaty.

"It is impossible now to enter upon a detailed analysis because, although we may suppose that the draft of the league sent over in the press dispatches is fairly accurate, we have no knowledge of the treaty with Germany or of its relations to the league."

"There is no desire anywhere to delay the treaty of peace with Germany one moment beyond the time necessary to understand it, but we must have it before us in the official form. As to the league of nations, the American people must know just what they are to be asked to agree to. By that league they are invited to take the gravest step ever taken by the United States, and no organized clamor, no manufactured pressure of any kind will swerve the Senate from its high duty of laying before the American people exactly what the league involves and what it means to the United States, and to the future peace of the world."

## DELEGATES FEAR HOLY WAR

British Oppose Banishing Sultan From Constantinople.

Paris, May 20.—The English delegates are urging that the sultan be allowed to remain in Constantinople and are anxious that the United States accept the position as mandatory of that city, as well as Armenia.

The danger of a holy war is disturbing the council, which has been advised that radical changes are inadvisable without more foreign troops at strategic points to steady the situation.

## POLES DEFEAT UKRAINIANS

Offensive North and East of Lemberg Has Been Checked.

Warsaw, May 20.—The Ukrainian offensive north and east of Lemberg has been repulsed by the Poles with heavy losses to the attackers, an official statement issued by the Polish war office says. North of Kulikoff, north of Lemberg, the Poles have made a considerable advance and they also have gained a victory on the Volhynian front, near Zolkieff, northwest of Gulikoff.

## MAY SETTLE WINNIPEG STRIKE

Officials and Merchants Make Proposition to Unions.

Winnipeg, May 20.—Draft of a plan for the settlement of the general strike here will be submitted to the unions at once, it is expected. The plan, it is said, was worked out at meetings of officials, professional men and merchants which were attended by men friendly to the unions.

Another War for U. S. Predicted.

Coblentz, May 20.—Henry Morgenthau, former American ambassador to Turkey, addressing soldiers here, predicted that the United States would again be involved in war within 15 or 20 years.

## MCGARRY-WALKER TOUR ON JULY 25

Route Through Brainerd, Evening and Night Control Established in this City

## STATE AUTOMOBILE ASSOCIATION

To Honor Senator McGarry, Brainerd Automobile Club Host at Brainerd Perfecting Plans (Minneapolis Sunday Journal)

L. F. Bolser, chairman of the tours and contests committee of the Minnesota State Automobile association, is arranging for the McGarry-Walker tour given by the state association in honor of P. H. McGarry, senator from Walker, who was chairman of the senate roads committee and had to do with the successful passage of the law permitting the Babcock highway amendment to be put to a vote of the people in 1920.

All of the 65 clubs throughout the state affiliated with the state association are being urged to participate and several having already indicated their intention of doing so.

The route of the tour will be via St. Cloud, Little Falls, Brainerd to Walker. The Automobile Club of St. Cloud has invited the tourists to have luncheon with them and arrange for a short tour about town. An afternoon control will be arranged at Little Falls. The evening and night will be spent at Brainerd, where the Automobile club of Brainerd is already making plans for the entertainment of the guests. Several of the northern clubs will meet the tourists at Brainerd and go on to Walker with them.

The tour will leave Minneapolis Friday a. m., July 25, and reach Walker Saturday noon. Dr. F. L. Wilcox is in charge of tour reception at Walker, which assures a successful affair from the outset.

## Dissatisfied With Treaty 9 American Commissioners Resign

By LOWELL MELLETT (United Press Staff Correspondent)

Paris, May 20—Nine members of the American peace commission have offered their resignations as the result of dissatisfaction with the terms of the treaty it is learned today. Three of the resignations have been held in abeyance at the request of the commission. Prof. A. A. Young, of Cornell University, chief economic expert, Dr. Issas Bowman, New York, head of the territorial intelligence division, and W. C. Bullitt, expert on Russian affairs, are said to have finally withdrawn. The name of the other six commissioners have not been made public, pending further consideration.

## Germans Receive Final Instructions Regarding Treaty

By FRED S. FERGUSON (United Press Staff Correspondent)

Paris, May 20—The Germans have received their final instructions regarding the peace treaty it was believed today.

## British Warships Bombard Bolshevik Positions At Kerch

(By United Press)

London, May 20—British dreadnaughts bombarded our positions at Kerch in eastern Crimea an official wireless from Moscow reported today.

## Pershing's English Visit Deferred

(By United Press)

London, May 20—The war office today announced General Pershing's visit to England had been deferred because of the uncertainty of the German attitude toward peace and the military situation arising therefrom.

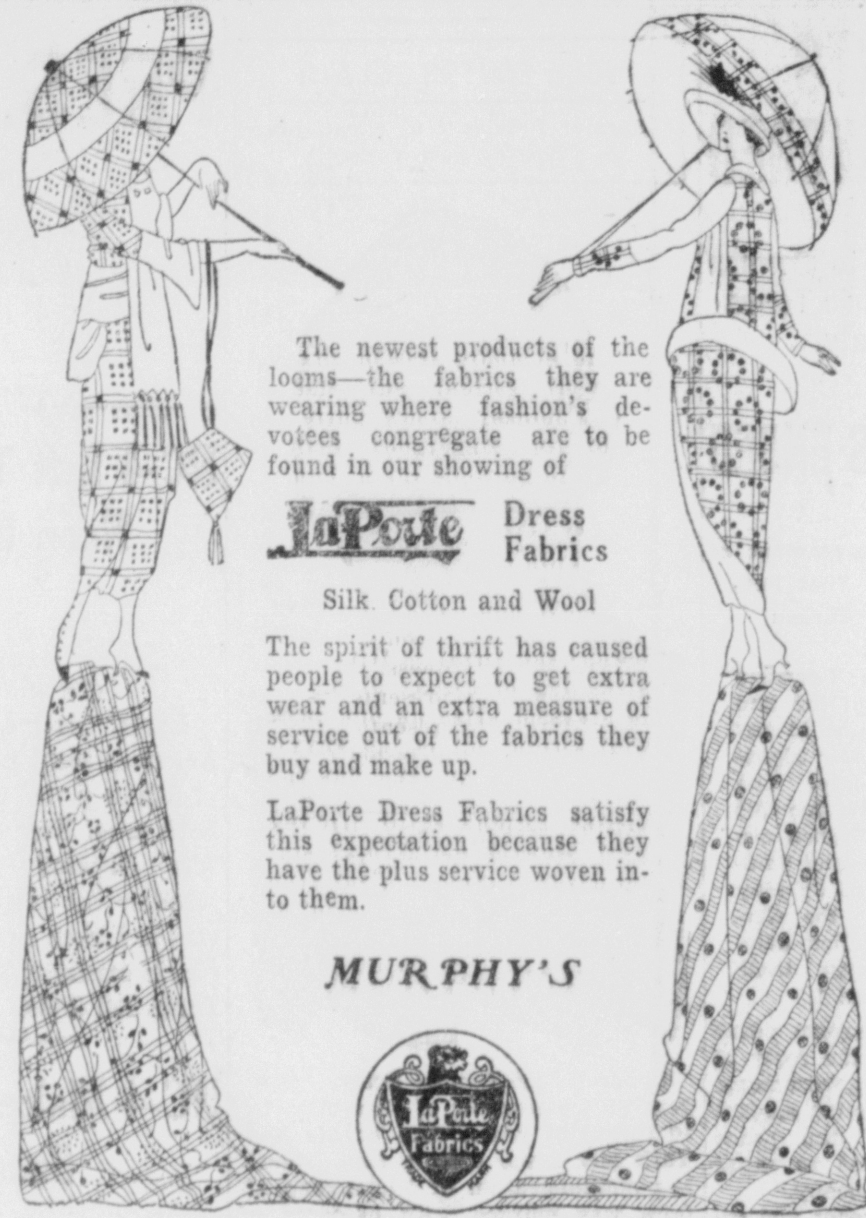

## State Pardon Board Meeting Postponed

(By United Press)

St. Paul, May 20—The state pardon board meeting scheduled for today has been postponed until Friday.

OLD PAPERS—5c BUNDLE

Not a Bite of  
Breakfast Until  
You Drink Water

Says a glass of hot water and phosphate prevents illness and keeps us fit.

Just as coal when it burns, leaves behind a certain amount of combustible material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and ptomain-like poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before eating breakfast each morning drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash out of the thirty feet of bowels the previous day's accumulation of poisons and toxins and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

Remember inside bathing is more important than outside bathing, because the skin pores do not absorb impurities into the blood, causing poor health, while the bowel pores do. Just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels.

## All Ready for Your Fishing Trip?

If not, let us help you get ready. We have

Steel Rods from	\$2.00 to \$7.00
Reels from	\$2.00 to \$12.00
Fish Hooks per. doz.	5 to 10c
Dip Nets from	\$1.50 to \$2.50
Artificial Baits	35c to 75c
Tackle Boxes from	\$1.50 to \$2.00

And a great many useful things to complete a fishing trip.

## WOMAN'S REALM

### SCHOOLS CONTRIBUTIONS

Were Noteworthy in Making Tag Day an Unqualified Success

In the report for Tag Day given yesterday the contributions of the schools were noteworthy. The hearty interest of our young citizens was due to the little talks on the subject of the nurse, given before hand. In the Lowell, Mill, Whittier, Harrison and Parochial schools these talks were given by the teachers or principals. In the Washington and Lincoln schools by request Mrs. J. P. Early addressed the children of each room.

Besides those mentioned, several groups of ladies in various parts of the city assisted in tying tags.

In the list of down town workers Mrs. Higbe's name was overlooked as being in charge at Ericsson's bakery corner. Mrs. Higbe as well as many others assisted in various capacities and the many sacrifices on the part of the women to put the work through will never be known except to themselves. This self-sacrificing spirit is what brought success.

### A Surprise

The mothers of the little "Beginners" in the Whittier school gave the normal department girls in charge of the grade a very pleasant surprise last Friday.

Just as the young teachers were about to dismiss the twenty little people for the day, fifteen of these appreciative mothers appeared on the scene. Ice cream freezers and huge baskets of goodies were much in evidence and the workers were invited to return to the feast.

After the little people and their normal department teachers had been served, Mrs. Lawrence and the regular Whittier teachers enjoyed a social hour with the mothers and had a generous supply of dainty refreshments.

The "surprise" was a happy thought, beautifully carried out. It certainly is a fine thing for the little people, to know that everything about school life interests "mother" and happy for them if this watchful interest follows through grades and high school.

### B. A. Y. Meeting

The Brotherhood of American Yeoman will hold their regular meeting Wednesday evening May 21. Ladies will be in charge. There will be class adoption and refreshments and after 9 o'clock there will be a social dance. A cordial invitation is extended to all.

### Episcopal Guild

There will be a special meeting of the Ladies Guild of the Episcopal church at 3 o'clock Wednesday at the home of Mrs. W. H. Crowell, North Fourth street. All members are urged to be present.

### BIRTHDAY PARTY

Mr. and Mrs. H. O. Gaskill Entertained for May E. Purcell Saturday

On the evening of May 17th Mr. and Mrs. H. O. Gaskill of Brainerd entertained about twenty-five couples of old timers and young folks at the residence of May E. Purcell at her home on the west side of the river at Fort Ripley.

The occasion was the 44th birthday of Mrs. Purcell who is a sister of Mrs. Gaskill and who has resided at Fort Ripley for a number of years.

The evening was spent in a general old time visit with music and games by the younger set.

At eleven o'clock a delicious lunch was partaken of after which the merry makers wished Mrs. Purcell and the hostess a hearty good night and hoped that she would see many more years of happiness.

The number of presents received by Mrs. Purcell represents the high esteem in which she is held by her many friends.

### Baracca Class

The Baracca Class of the First Baptist church had a banquet at West's today afternoon over thirty being present. The main dining room was beautifully decorated with ferns and carnations. Addresses were made by prominent members of the class.

### MANN PRESENTS RESOLUTION

House Receives Measure Providing for Woman Suffrage.

Washington, May 20.—The first joint resolution to be introduced and listed in the House was the one providing for woman suffrage, prepared by Republican Leader Mann. The honor of the second joint resolution went to Representative Steiensen's plan for the immediate return of the telephone and telegraph systems.

The first House resolution provides that Rear Admiral Sims, commander of the American navy forces in the great war, shall be given the permanent rank of admiral.

### DECLARES FEAT A SUCCESS

London Newspaper Congratulates American Aviators.

London, May 20.—"The Azores are Europe's outpost," said the Express in an editorial. "The flight from the new to the old world has been accomplished. It is a great achievement. Congratulations to the plucky American sportsmen."

### New Auto Road Planned.

Washington, May 20.—Secretary Lane announced plans for establishing an automobile line from Denver, Col., through Rocky Mountain, Yellowstone and Glacier National parks, by way of Boulder and Loveland, Col., Cheyenne, Douglas, Caspar, Thermopolis and Cody, Wyoming, and Livingston, Bozeman, Boulder, Townsend, Helena, and Choteau, Montana. Secretary Lane said improved road conditions would make it possible to change the route so as to include several other important cities.

Exploring Cannibal Isles is This Woman's Hobby

MRS. MARTIN JOHNSON

Mrs. Martin Johnson says she just can't be civilized all the time so she has started off on another exploring expedition with her husband. She explains that when he married her he thought he had had enough of wandering in strange and dangerous places, but the only fever came back. Against his protests she accompanied him on a trip to islands in the South Sea inhabited by cannibals, where no white person had ever been before. Although she is a dainty little woman, who looks as though she were in her teens but insists she is twenty-five, she survived the hardships as well as her husband and now she is as confirmed a wanderer as he is. They left San Francisco recently for another visit to the jungles of unexplored islands.

### WAR COSTLY TO BELGIUM

Conflict Resulted in Death of About 100,000 Children.

Chicago, May 20.—The war has cost Belgium 100,000 children, Dr. Rene Sande, one of Belgium's leading medical authorities and professor of social and industrial medicine at the university of Brussels, declared at the opening session of the International Child Welfare conference.

The speaker declared, however, that an increase in the number of baby clinics and other child welfare provisions was offsetting this loss and making for a diminished death rate.

### Too Cool for Comfort.

The coldest place on earth inhabited by man is Verkhoyansk, above the arctic circle, in northeastern Siberia. The thermometer there drops to 90 degrees below zero in January, but sometimes rises to 86 degrees above zero in the shade in July, dropping, however, to the freezing point on the warmest summer night.

### \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. Cheney & Co., Toledo, Ohio. Sold by all Druggists, 75c.

### Widow Cries for Joy

"I couldn't eat anything but raw eggs and sweet milk and was so weak I could hardly walk across the room. I would have been in my grave today if I hadn't taken Mayr's Wonderful Remedy when I did. When I think how I have suffered with my stomach and how good I feel now I cry for joy." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Johnson's Pharmacy and druggists everywhere.—Adv't.

## MILITARY RANK FOR U. S. ARMY NURSES

DEMAND TO BE MADE ON BEHALF OF HEROIC WOMEN WILL BE CAREFULLY CONSIDERED.

### REASON FOR THEIR POSITION

Question of Efficiency Enters Largely Into the Matter—Canadian Nurses in the Great War All Were Commissioned.

By EDWARD B. CLARK.

Washington.—Military rank is to be asked for American army nurses. Ella Phillips Crandall, secretary of the committee of nursing of the council of national defense, goes so far as to say that in future wars women will refuse to serve as nurses unless they are given commissions.

There is a reason, although it may be that the military authorities will deny that it is an adequate one, for the position which the women nurses take in this matter. There have been reports of many cases in which the women have been unable to get certain things done in the hospitals near the front because they did not have the insignia of rank which entitled them to give orders to service men acting supposedly under them.

It is understood that an attempt will be made to get at the demands from the viewpoint of absolute justice in the case, and if it shall be found that efficiency will be best served by granting the nurses' wishes the thing probably will be done.

In 1915 I was in Europe as a correspondent and stayed some time in England before leaving for the French front. I was stopping at a hotel in the English metropolis when 75 Canadian young women army nurses arrived. They were to be distributed to the various Canadian hospital camps in the field. Every one of these women was an army officer to the extent that she held a commission as second lieutenant. This gave her the right within certain restrictions to issue orders to noncommissioned officers and enlisted men of the Canadian service.

### Canadian Plan Worked Well.

Afterward I was told that this plan worked for the good of the service. Each of these young women was trained in her profession and this meant that in nine cases out of ten at least she would know better what to do in certain cases in the hospital than would the only partially trained man or noncommissioned officer on duty with her. It is known that in some cases soldiers disliked and occasionally even refused to take orders, even in emergency cases, from women who had no emblem save that given them by a badge of nursing which they wore, the outward and visible sign of training.

The women nurses of the United States who went abroad to serve their country did a heroic work. They not only served frequently under fire, but they were compelled time after time to do body-breaking and heart-breaking work, because in war there are times when all thoughts of self must be given over and all limitations of hours of work and kinds of work must be set at naught.

At one time the young womanhood of America suffered in another way. Shortly after the United States entered the war German sympathizers in the United States started stories on their rounds concerning the nurses in the service of the government. The stories, of course, were malicious lies with absolutely no foundation in fact, and yet there were American women and American men, patriotic in all their intended works and general intentions, who were found ready to pass these stories about through the sewing circles and the clubs of the country.

### Slandered by the Huns.

It did not take long for the officers of justice and for the military authorities to trace some of these stories to their sources and every case was found to be one of Hun propaganda, started with the intention of so worrying American parents that they would refuse to allow their daughters to undertake the work of caring for the wounded soldiers who had gone to the front to fight for their country.

It was not long before this sort of stories was stopped, but while they continued they were a source of humiliation to thousands of the patriotic young women of America and a source of grief and anxiety to thousands upon thousands of parents.

It may be that in the future the United States army as an army will take unto itself all the nursing units and will direct them as a part of the army. This means that the lines of differentiation between civil and military functions will be wiped out and that the nurses will be under direct army rule and will thus be able directly to issue army orders within the immediate fields of their work.

### Speak Pleasantly.

Make a habit of speaking pleasantly. If you are asking for a spoon of silk or suggesting to your teacher that your marks for the month are lower than you expected, wear an interested expression and make your voice pleasant. Fretful, irritable speaking makes much misery in the world. What an easy way it is, after all, of helping those with whom you come in contact, just to speak pleasantly.—Girl's Companion.

WHERE PRICE & QUALITY MEET  
**Lammon's**  
THE STORE WITH A CONSCIENCE  
BRAINERD MINN.

## A Thousand Stores in One

There is no one line of merchandise quite so comprehensive as the line found in the drug store. A Drug Store may easily be called a thousand stores in one, because it sells things that everybody, man and woman and child uses. It is open longer than any other store; it offers better goods and better service methods than most stores attempt. Remember us for anything that any drug store anywhere can offer you. Remember our qualities—they are always the best. Our assortment is as good as could be expected or desired, or if at any time there is something that you do want that we do not happen to have it's easy enough for us to get it for you. Prices must receive your consideration because the drug store is frequently able not only to sell you better goods, but to save you money.

MISS BETTY FISHER

Although Miss Betty Fisher, yeoman (1) second class, otherwise yeomanette, is now a millionaire twice over, she intends to remain in the navy until placed on inactive service. She has been wearing the uniform for more than a year. Miss Fisher, whose home is in New York, was informed recently that an uncle, John P. McMahon, who was an Oklahoma oil producer had left her his entire fortune of more than \$2,000,000.

### 49 OF 53 BANK EMPLOYEES ARE D. B. C. GRADUATES

Of the fifty-three people employed by the banks of Fargo, N. D., forty-nine attended the Dakota Business College, of that city. Mr. M. Murek, recently placed with the First National Bank of Fargo, makes fifteen now employed there.

A. F. Seidl of St. Anthony, a Post-Graduate, is now Assistant Cashier of the German State Bank of Strasburg. In a recent letter, Mr. Seidl said: "The best thing I ever did in my life was entering the Dakota Business College."

Summer School opens June 2. Inquiries should be addressed to F. L. Watkins, Pres., 806 Front St., Fargo, N. D.

### THE MEN IN CLASS A1

A sound, healthy man is never a back number. A man can be as vigorous and able at seventy as at twenty. Condition, not years, puts you in the discard. A system weakened by overwork and careless living brings old age prematurely. The body functions are impaired and unpleasant symptoms appear. The weak spot is generally the kidneys. Keep them clean and in proper working condition and you will generally find yourself in Class A. Take GOLD MEDAL Haarlem Oil Capsules periodically and your system will always be in working order. Your spirits will be enlivened, your muscles supple, your mind active, and your body capable of hard work. Don't wait until you have been rejected. Commence to be a first-class man now. Go to your druggist at once. Get a trial box of GOLD MEDAL Haarlem Oil Capsules. They are made of the pure, original, imported Haarlem Oil—the kind your great-grandfather used. Two capsules each day will keep you toned up and feeling fine. Money refunded if they do not help you. Remember to ask for the imported GOLD MEDAL Brand. In three sizes, sealed packages.

## TRAIN STRIKES AUTOMOBILE

Two Men and Boy Killed and Two Boys Injured.

Lisbon, N. D., May 20.—Two men and a boy were killed and two boys were seriously injured when a passenger train on the Soo Line struck an automobile at McLeod.

The dead are E. L. Vining, 45, farmer, Craftee; A. Nystul, 14 year old son of George A. Nystul, farmer, McLeod, and V. E. Frum, 50, potato buyer, Valley City.

## BERGER'S RIGHT CHALLENGED

Gallinger Objects to Convicted Socialist Taking Seat.

Washington, May 20.—Victor Berger's right to a seat in the house was challenged by Representative Gallinger, Massachusetts, when the Wisconsin socialist stepped before the speaker's desk to be sworn in. "I object to the swearing in at this time of Victor L. Berger," Gallinger said, "because he is convicted under federal laws."

SOLDIERS ABROAD  
LOVE HOME SPORTS

Knights of Columbus Conducting Large Athletic Program Overseas.

Paris.—With more than a million soldiers overseas awaiting transportation home and demobilization, the problem of providing entertainment and recreation for them looms big, but the Knights of Columbus are seeking the solution. Hundreds of athletes, many noted physical culture teachers and scores of theatrical entertainers are serving overseas as Knights of Columbus secretaries, and through them the Knights are providing recreation and educational features of a high order.

The athletic program to be followed throughout occupied area in Germany and at all camps of the American Expeditionary Force in France during the term of service of the armies of the United States overseas is rapidly taking definite form. In this important field, sanctioned and controlled by the officers of the army, baseball will soon share with boxing the concentrated attention of the Athletic Department of the Knights of Columbus.

Director "Jake" Carey of the recreational division has obtained many well-known athletes in America to supervise the work in all divisions and at all camps. Following the recent appointment of Alec MacLean of Boston as boxing director in the ten divisions of the Third Army came the selection of Tom Dowd as general baseball organizer for the army of occupation in Germany. Mr. Dowd arrived in Paris, January 11, with a company of 33 K. C. secretaries. He was immediately appointed to the athletic division and will soon assume his duties at Vertriech with the Fourth Division, A. E. F. Carey, who made a big hit during

the Frawley Boxing Law day by the way be conducted a club at Rochester, says that plans are progressing rapidly for the big tournament that the Knights of Columbus is putting on for the expeditionary forces in June.

The Knights of Columbus tourney promises to be even greater than the recent King's trophy tourney in London. There will be belts awarded in all the classes, and all the boxers of the allied forces will be eligible to compete.

According to Carey, there is boxing galore at all the rest camps for the men who anticipate entering the lists. There are to be some crack boxers in the ranks of Pershing's forces. Many of these men seem destined to take away the titles from some of our present world's champions when they return home.

The Knights are fitting up gymnasiums where the men can train every day in preparation for the big tourney. Complete sets of gymnasium paraphernalia are being shipped across and everything possible done to assure our boys of winning the point trophy cup, which will go to the country scoring the most points. William P. Larkin, K. of C. Overseas Director, declared recently that the organization had sent hundreds of thousands of dollars' worth of athletic material to the men in service overseas.

## BRITISH ATTACK BOLSHIEVIKI

Helsingfors, May 20.—British warships engaged the Russian bolshevik fleet in a 35-minute fight, in the gulf of Finland. The bolsheviks fled to Kronstadt after one of their vessels had been sunk and another stranded.

## Oeschger to the Giants.

New York, May 20.—George Smith, champion traded pitcher of the world, added another jump to his career when he went to Philadelphia in a deal that brings Joe Oeschger to the Giants. Smith has now succeeded in playing with the Giants, Reds and Dodgers.

## Supreme Court Adjourns.

Washington, May 20.—The supreme court after giving opinions, adjourned until June 2.

SALVATION ARMY  
FACES VAST TASK  
AT CLOSE OF WAR

Colonel William Barker Outlines Problem Arising Since Signing of Armistice.

## MUST EXPAND WORK

Larger Buildings, Better Facilities Needed to Care for Increasing Field of Endeavors.

Col. William Barker, who led the first force of the Salvation Army sent to France, has outlined a few of the details of what the famous organization intends to do in the future, both here and abroad.

It was under the management and direction of Colonel Barker that the far-reaching campaign was developed, and the program carried out which has brought such credit and fame to the Salvation Army. He is here to make a report on changed conditions overseas; to submit the details of a further program and incidentally to give an account of his stewardship before the beginning of the Salvation Army's home service fund campaign, which takes place from May 19th to May 26th.

"The ending of a war is like the sudden turning over of a leaf in the book of history," said Colonel Barker. "Old problems turn themselves into new ones. The armistice did not mean the abatement of war relief work. To the contrary, it meant an increase of effort along changed lines. Of course it is very pleasant to hear so many kind things said about the Salvation Army work overseas, and that is all the reward we seek, but the task of serving the soldier and sailor according to his new environments is a large and serious one."

"We want the public to know what has become of the money it has given to sustain the work of the Salvation Army in France, and, knowing that, to give us its confidence and stick with us until the last American soldier and sailor is home here. Then, of course, comes the transition of our work, for with hundreds of thousands of new friends made during the bitter struggle of war we must face new and increased responsibilities at home during peace. These men are fully expecting to remain in contact with the Salvation Army after they get back to America."

"That means the expansion of every branch of our relief work and a strenuous effort to match up with the new needs. It means larger institutions for employment bureaus, for hospitals where the wives and daughters of former service men can find good care and not have to worry about paying for it if they are without funds. It means larger orphanages, bigger fresh air farms, more free coal and ice to the poor and far better and bigger facilities for giving sensible and quick help to the man who is 'down' but who is never 'out.'"

"With one phase of our work accomplished we are glad to leave the work with the soldier and sailor and to furnish any detailed information that the public may require. We feel sure that the men who were so appreciative 'over there' will help us now, with their friends and relatives over here, to get upon our feet with the machinery for human relief that we have been trying to build up in America for more than thirty years."

## GENERAL VANDERBILT TO LEAD.

Not only are the soldiers enthusiastically backing the Salvation Army drive for \$10,000,000, but they are furnishing leaders that assure it of success.

In Greater New York Gen. Cornelius Vanderbilt has accepted the chairmanship and will have back of him the full strength of the "Four Hundred," which has become interested in promoting of the welfare work of the Salvationists.

## SERVICE MEASURES APPEAR

Legislation Proposed for Benefit of Discharged Men.

Washington, May 20.—The service organization asks legislation promoting public works so discharged service men may get employment; extra pay of \$500 to all men honorably discharged from the service; investigation of all court-martial during the war, as well as a revision of present laws, and the repeal of "burdensome and onerous taxes on soft drinks and motion picture admissions."

## GLASS PRESENTS ESTIMATES

Treasury Asks Supplementary Appropriations of \$202,000,000.

Washington, May 20.—Secretary Glass asked Congress for \$202,000,000 in supplemental appropriations asked by all departments for the next fiscal year.

The heaviest demand came from the War Risk Insurance bureau, which wants \$192,394,000 immediately.

## What Is The Cause of Headache? Backache?

BY DOCTOR CORNELL

Backache is perhaps the most common ailment from which women suffer. Rarely do you find a woman free from it. Sometimes the cause is obscure but Dr. Pierce of Buffalo, N. Y., a high medical authority says the cause is very often a form of catarrh that settles in the delicate membranes of the female or the first symptom may be backache, or headache, dizziness, accompanied by bearing-down sensations, weakness, irregularity, painful periods, irritation, and a general run-down condition. Any woman in this condition is to be pitied, but pity does not cure. The trouble calls for Dr. Pierce's Favorite Prescription, which is a separate and distinct medicine for women. It is made of roots and herbs, put up without alcohol or opiate of any kind, for Dr. Pierce uses nothing injurious. In taking Favorite Prescription, it is reassuring to know that it goes straight to the cause of the trouble. There is but one way to overcome sickness, and that is to overcome the cause. That is precisely what Favorite Prescription is intended to do.

Send 10 cents for trial package of Tablets. Address Invalids' Hotel, Buffalo, N. Y.

## Blast Another Hope of Thirsty

(By United Press)

Washington, May 20.—Take it from the chief chemist of the bureau of internal revenue, there'll be no sinister meaning in the above couplet when the prohibition laws become effective July 1.

The boys who hope to find surcease from sorrow at the demise of John Barleycorn by inhibiting in a "Sure Cure for Malaria," or "Blanks stomach bitters highball" are doomed to disappointment.

To be sure, such preparations will be sold. Likewise they will carry a "kick." But the jolt will be followed by a morning-after effect compared to which return to consciousness from a three-days champagne revel will seem like recovery from over-indulgence in malted milk.

For the revenue bureau is going to see that alcoholic medicines contain enough medicine. In each fluid ounce of medicine containing alcohol as one of its basic properties, there must be an "average dose of one or more compatible drugs of recognized therapeutic value."

Medicines which do not meet this test are classed as "boozes." Their manufacture and sale for "non-beverage" purposes are forbidden. On the date prohibition becomes effective the manufacture and sale of such so-called medicines will be stopped altogether.

With the revenue bureau forcing alcoholic medicines to keep up their standard as medicine, those sincere seekers of alcohol, ignorant of the effect of "average dose of one or more compatible drugs" will learn that the word "compatible" in no way refers to the human system.

Dr. A. B. Adams, head of the revenue bureau laboratory, says there are manufactured and sold in the United States 100,000 preparations containing on an average of from 14 to 16 per cent alcohol. Many have the same formula, but are sold under different names. Some contain as high as 90 per cent alcohol and oil of peppermint. Two or three drops is a dose and little more is needed to obtain a "bun."

Among seekers of alcohol in patent medicine, the bureau has on record one man who drank a two ounce mixture of 60 per cent alcohol and 30 per cent ether—and lived. The third ingredient was not mentioned—and might have been the life saver. During the last fiscal year ended June 30th, 1,816 samples of non-beverage alcohol and medicines were examined by the internal revenue laboratory. According to Adams, probably 25 per cent failed to meet the government standard.

The bureau is informed of the manufacture and sale of such medicines principally through the field force of revenue agents. An agent who hears of an unusual demand for a prescription will buy a bottle and send it to the laboratory for analysis. If it contains too much alcohol and not enough drugs the manufacturer hears a few days later from the collector of internal revenue.

## AMUSEMENTS

At the Best Today

One week of life! What doesn't that hold for thousands of people? No sooner had the scenario of Cosmo Hamilton's play of that name been suggested to me as my next Goldwyn Picture than the title ran through my mind. Without guessing its relation to the drama I was arrested by its general significance. For who in the world does not long for a week of life such as they think would bring them happiness?—(Pauline Frederick.)

Not only those who are tempted by illicit love, as is the case of characters in "One Week of Life," but hundreds of other reasons prompt people to yearn for surcease from the monotony of everyday existence. It is not lovers alone who wish to run away, but the weary mother, the overworked husband—even the rebellious school girl. All dream of a different taste of life, and all when finally experience it find it lacking in what they expected. It is like the two weeks vacation of the clerk and stenographer—they usually are glad to get back to their desks. The mother, if she is fortunate enough to be rid of the children for a day, is anxious to see if they are all right. And so it goes.

At the Park Wednesday

In "Johnny Get Your Gun," the new Artercraft picture in which Fred Stone is starred at the Park theatre Wednesday, that famous comedian does his dance poetique, a celebrated acrobatic dance that won him the praise of the greatest critics, and then follows it with an extraordinary coping stunt.

With his usual agility Fred finishes the dance, which takes place on a ballroom floor, jumps to a balcony, seizes a rope, and swinging it through an open window lapses the Count of Bullion-ia, as the latter is about to leave on an elopement party. It is the most daring piece of acrobatic fun seen here in some time.

At the Best Wednesday and Thursday

After holding the stage in England and this country for more than thirty years, "The Silver King," the famous melodrama of English life, written by Henry Arthur Jones and Henry Herman, has been pictured with William Faversham in the stellar role, and this great picture will be shown at the Best theatre Wednesday and Thursday.

New Arguments Ordered.

Washington, May 20.—The Supreme court ordered a reargument of test proceedings involving the constitutionality of provisions of the income tax amendment of 1916 taxing stock dividends as income. Arguments will be heard next fall.

Churchill Reaches Paris.

Paris, May 20.—Winston Spencer Churchill, British secretary for war, arrived in Paris. It is understood his visit is connected with the troubles on the Afghanistan border.

## PRES. STRICKLER NAMES COMMITTEES

Standing Committees of the City Council Announced, H. F. Michael Heads that on Finance

### SEWER BIDS ARE OPENED

L. Greeno Elected Clerk, Council Lets Bids on Waterworks, Successful Bidders Named

The standing committees of the city council as named by President J. H. Strickler on Monday evening's session of the council:

Finances and Taxes—H. F. Michael, F. M. Koop and Andrew Gus Anderson.

Purchasing, Printing, City Property—Andrew Gus Anderson, H. F. Michael, Otto L. Cordes.

Streets, Sidewalks, Bridges—William C. Rasch, John N. Witham, Andrew Gus Anderson.

Health, Sewerage and Police—Otto L. Cordes, W. J. Lyons, William C. Rasch.

Fire and Water—Andrew Anderson, Emil A. Hugdahl, John N. Witham.

Electric Light—F. M. Koop, William C. Rasch, Andrew Gus Anderson.

Relief of Poor—John N. Witham, Andrew Anderson, W. C. Rasch, Emil A. Hugdahl, F. M. Koop.

#### City Clerk

The city clerk election was taken up. City Attorney D. H. Fullerton stated the qualifications necessary and that as to the residence of a man such status depended on the party's intent. He also called attention to the section in the city charter which pronounced an office vacant where the person elected failed to qualify in that period. He read a new amendment to state laws which stated where qualifications were equal, the appointment of a soldier, sailor or marine was to be preferred.

Lloyd Greeno, formerly of Brainerd and later of Livingston, Montana said he had been transferred to Montana and was in the employ of the Northern Pacific railway company and had tried twice to be transferred back to Brainerd. He had not voted or registered in Montana. He stated that his idea had been that if elected city clerk he would get \$110 salary and \$20 extra for stenographic work.

"If I can't get more than \$110 a month I shall withdraw my application," said Mr. Greeno.

The office was declared vacant and an informal ballot was taken on motion of Alderman Michael, seconded by Alderman Hugdahl.

The vote stood Greeno 6, Anton Mahlum 3, Berggreen 1.

Alderman Michael asked what effect the state amendment giving preference to soldiers, sailors and marines had and City Attorney Fullerton said the council was the judge of the qualifications of a candidate.

A formal ballot was then taken and the vote stood the same.

An motion of Alderman Cordes, seconded by Alderman Hugdahl, carried, the city clerk's salary was set at \$120, for which he was also to take care of stenographic work, etc.

#### Sewer Bids

Sewer bids were opened and the amounts recorded but no action taken on letting the contracts because of the absence of City Engineer K. T. Campbell, who was reported sick.

There were five different jobs:

District Sewer No. 5—260 lineal feet of ten inch vitrified sewer pipe, 733 lineal feet of eight inch vitrified sewer pipe, two manholes and two lampholes.

Lateral Sewer F-3—473 lineal feet of eight inch vitrified sewer pipe, one manhole and one lamphole.

Lateral Sewer P-2—363 lineal feet of eight inch vitrified sewer pipe, one manhole and one lamphole.

Lateral Sewer P-3—Approximately 390 lineal feet of eight inch vitrified sewer pipe, one manhole and one lamphole.

Lateral sewer P, sewer district No. 1—Approximately 725 lineal feet of eight inch vitrified sewer pipe, three manholes and two lampholes.

Illstrup & Olson of Minneapolis bid on the first proposition \$2.03, second \$2.33, third \$2.04, fourth \$1.90,

fifth \$2.01, making an aggregate of \$5,345.35.

Pastoret Construction Co. of Duluth bid on the first \$3, and \$1.90 on each of the others.

Sherlund Co. of Brainerd bid \$2.15 on the first and \$2.06 on each of the others.

#### Waterworks Bids Allowed

Carl Zapffe, president of the Water and Light Board brought up the matter of recommendations of the board on the various bids for waterworks material and construction submitted. It was stated there was a big difference in the purchase price and the laying of pipe. The city had to forego taking up some of the old mains. Mr. Zapffe recommended accepting the bid of the U. S. Cast Iron Pipe & Foundry Co.

Alderman Michael moved that as the council had heard all the speakers on pipe, the water and light board had sifted out the bids and as the pipe prices were all the same and the only difference lay in the freight charges, the bid of the company named by Mr. Zapffe be accepted.

Alderman Andrew Anderson introduced a mass of correspondence relating to the status of various bidders as concerned labor conditions.

A. A. Weidemann of the Water and Light Board said the company was fair, as far as he could find out.

The motion of Alderman Michael was duly seconded and the furnishing of cast iron pipe awarded to the U. S. Cast Iron Pipe & Foundry Co. of Chicago at \$45 per ton, f. o. b. Addison, Ohio.

On motion of Alderman Rasch seconded by Alderman Gus Anderson the bid of Fairbanks Co. of Iowa as recommended by the Water & Light Board, was accepted and that company will furnish the hydrants at \$931.32.

On motion of Alderman Rasch seconded by Alderman Andrew Anderson the bid of James B. Clow & Sons of Chicago for valves and valve boxes, \$2206.35, recommended by the Water & Light Board, was accepted.

All bids of pipe laying were rejected and the city will do the same by day labor.

"Their bids were away out of reason," said Alderman Michael.

On motion of Alderman Andrew Anderson seconded by Alderman Hugdahl the day labor way of handling the situation carried.

Open well construction was awarded Wm. S. Hewitt of Minneapolis at \$9,488.

The city will build its own pump houses and pump pits and will advertise for a reservoir, for pumping machinery and flanged pipe and fittings. The city will do its own wiring and erecting.

The council decided on building a reinforced concrete tower and tank according to the design of Engineer L. P. Wolff and let the same to William S. Hewitt of Minneapolis for \$28,570.

The proposition of leasing a site for tank and tower from the Northern Pacific railway company immediately north of the burned depot area was accepted.

The city will buy pipe, hydrants and valves and lay them immediately. Contractors will erect the reservoir, concrete well and concrete tower. The cost of this will be \$236,000.

This will give adequate service to all now served with water and will give the necessary and desired fire protection. When the work is completed, the city will proceed to lay additional proposed pipe line extensions until the balance of the bond issue is consumed.

The merits of concrete construction of a reinforced concrete tower and tank was gone into by members of the water and light board, Consulting Engineer Wolff of St. Paul and representatives of cement and steel interests.

#### Concrete Water Tower

In taking up the concrete water tower President Zapffe stated the board had no recommendation to make, but favored having the council take the matter in its hands of deciding whether they wanted concrete or steel. Mr. Zapffe personally favored concrete. The Northern Pacific railway had promised a site free providing the tower was of concrete.

Commissioner A. A. Weidemann mentioned that a steel tank would ef-

fect a saving of several thousand dollars in cost. He did not favor concrete or steel but believed in passing the matter to the council for its ultimate decision.

Commissioner A. Arnold favored concrete and said the saving over steel construction would amount to \$3070. Steel was not ornamental. In constructing tower and tank of concrete local labor, sand, gravel and cement could be employed to advantage.

City Assessor Hugo A. Schwartzkopf called attention to the fact that building the tower on some other site than the railway's free site would take from the tax lists of Brainerd a half block at least.

Consulting Engineer L. P. Wolff spoke of the proposed concrete tower. Within was to be a spiral staircase leading to a balcony from which could be gained a view of all the city and surroundings. He said Contractor Hewitt offered to pour the whole tank at one operation thus eliminating joints and any possible chance for leakage. A steel tower might be objected to by property owners. Ice formed quicker in steel than concrete tanks. The concrete tower was to be coated with stucco.

A. J. Loom of the tile plant said ice four feet thick formed in the 100000 gallon tank at the hospital.

C. L. Bourne of Minneapolis of the Portland Cement Association was given ten minutes to speak on the advantages in using cement for the tower and tank.

He was followed by Engineer Scheeman of Chicago representing steel interests. He used his period in condemning concrete saying tanks made of concrete were leaky and failures and that there were so many "ifs" in building with concrete that you could not build a tank that would weather all conditions and give satisfaction.

Consulting Engineer Wolff said he was surprised at the statements made by Engineer Scheeman and disputed his assertion that the concrete tank at Osceola was leaking like a lawn sprinkler.

C. L. Bourne spoke again and said the steel man's statements were largely misrepresentations.

There followed the vote which declared for concrete and not for steel construction of tank and tower.

#### Petitions

Petitions received for the filling of a section of Rosewood street and tilling ditch were referred to the street committee and engineer to report at the next meeting.

#### Condemnation Matters

Walter F. Wieland was named special attorney to attend to the condemnation proceedings in the waterworks matters his fee being set at not over \$300 and necessary legal expenses.

#### Lights

To the electric light committee was referred applications for lights at Elm and Third streets, Portland Avenue, Bluff Avenue and Norwood.

#### Street Filling

A. Van Walk asked permission to take soil from a cellar at 601 Elm street and use same in filling a section of street. It was referred to the street committee and engineer with power to act.

Frank H. Peters asked that South Fourth street near his home be filled in. In one place the street was barely ten feet wide. It was referred to the street committee and engineer to report on cost.

#### "No Money"

President Strickler reminded movers of motions and hearers of petitions that the street and sewer fund was depleted and would not be replenished until in August. However all matters submitted would be investigated.

#### Wants Office

Mayor F. E. Little asked for office space in the city hall and it was referred to the property committee.

#### Band Contract

A. J. Loom of the Brainerd City band spoke and the usual contract with the organization was ordered entered into.

## ROLL OF HONOR

Sergeant Art Turcotte left Gendrecourt in France for LeMons on May 11 and will sail for home June 26 and expects to arrive in New York June 26. He belongs to the 88th Division, 313th Supply Train.

Ole Fahlstrom of the 77th Division who saw much service overseas, has arrived home. He was in the "Lost Battalion" which battled for days in the Argonne forest against overwhelming odds.

## CHAMBER COMMERCE GET-TOGETHER DINNER

Menu for Wednesday Evening is a Most Attractive One, Committee Plans to Serve 100

### RECONSTRUCTION PROGRAM

Committee Reports to be Made. Come Prepared to Offer Suggestions on Community Work

The menu for the Chamber of Commerce get-together dinner tomorrow evening has been arranged and indicates that those who attend will enjoy the best the market affords in substantial.

Glance over the following and then invite a friend to join you and be one of this gathering of consistent boosters for the old home town:

#### The Menu

Boston Baked Pork and Beans  
Home Made Cabbage Salad  
Hot Weiners Fresh Buns  
Home Made Doughnuts  
Hot Java, Cream Sugar  
Brainerd Creamery Butter

#### One Hundred Expected

The committee plans to serve at least one hundred persons and one of the most interesting meetings of the Chamber is to follow. Members are invited to come prepared to offer suggestions for the campaign of reconstruction being outlined by the Chamber along with other progressive organization of the country.

Committee reports are to be made, new subjects discussed and a general good time and profitable gathering is expected. Be there, don't be a slacker or a grouch in community work; you can't take the grouch with you when you go, it will not be wanted. If you leave it here, its not such a pleasant heritage to hand down to posterity and your earthly associates. Think it over and "crawl out of that shell" Wednesday evening.

#### Engineer Hurt

When Road Engine No. 623 backed up in the yards and its cab was side-swiped, Engineer Andrew Eck was badly bruised and removed to the hospital. He is recovering.

#### NOTICE

My wife having left me I will not be responsible for any bills she may contract.

HENRY TOLLEFSON.

#### RESOLUTION

Be it Resolved by the City Council of the City of Brainerd:

That the following tracts of land situated in the City of Brainerd, Crow Wing county, Minnesota, are necessary for the public use of said City for the construction, erection, improvement and protection of a waterworks system, and are necessary and proper lands for the source of water supply, buildings, reservoirs, stand-pipes, pipe lines and for the supplying of pure water to the said city and its inhabitants, to-wit:

That part of Lot 1, Section 36, Township 45, Range 31, lying west of the center line of Emma Avenue in Woodland Park Addition to Brainerd according to the plat thereof in the Registry of Deeds of Crow Wing County, Minnesota, as vacated by a decree dated February 10th, 1903, and recorded in said Registry of Deeds on August 23rd, 1907, at 11 o'clock A. M., in Book J of Miscellaneous Records on page 263.

Lot 1 and the N 1/4 of SE 1/4 of NE 1/4 of Section 35, Township 45, Range 31.

Lots 3, 4, 7, 8 and 9 of Block 6, and Lots 1, 2, 3, 4, 5 and 10 of Block 8, Woodland Park Addition to Brainerd, according to said plat.

That the fee title to said lands be acquired by the City of Brainerd for said purposes under its right of eminent domain in the manner prescribed by law.

Adopted May 19, 1919.

J. H. STRICKLER, President of City Council.

Approved May 20, 1919.

F. E. LITTLE, Mayor.

Attest: L. D. GREENO, City Clerk.

Published May 20, 1919.

## WOMEN! DRY CLEAN

## THINGS AT HOME

Try it! For a few cents you can dry clean everything.

Save five to ten dollars quickly by dry cleaning everything in the home with gasoline that would be ruined by soap and water—suits, coats, waists, silks, laces, gloves, shoes, furs, draperies, rugs—everything!

Place a gallon or more of gasoline in a dishpan or washbowl, then put in the things to be dry cleaned, then wash them with Solvite soap. Shortly everything comes out looking like new. Nothing fades, shrinks or wrinkles. Do not attempt to dry clean without Solvite soap. This gasoline soap is the secret of all dry cleaning.

A package of Solvite soap containing directions for home dry cleaning, costs little at any drug store. Dry clean outdoors or away from flame.

## "The intimate article of dress known as the corset which the majority of women wear but know very little about"

Alice S. Cutler, M. D.

IN this pertinent way the well-known medical authority, Alice S. Cutler, M. D., describes the most important garment in the wardrobe of women.

"Buy your corset carefully," warns Dr. Cutler. "No one wants to be ill, and when women realize that the constant wearing of an ill-fitting corset helps to keep our hospitals open they will insist on being properly fitted to corsets instead of buying them hit or miss."

We unreservedly recommend Gossard Corsets, the original front-lacing corsets, as the complete expression of modern corsetry. Every Gossard Corset is hygienically correct. If properly fitted to the figure for which it was designed, and carefully adjusted each time it is worn, it will mould that

figure to the ideal proportions of its type. It will give a priceless all-day comfort. It will safeguard the wearer against those bodily ailments that are often the result of improper corsetry. It will render a wearing service that alone is worth the price paid for the garment.

If possible, the new Spring and Summer Gossards are superior to those of the past season, which were generally acknowledged to be without equal in meeting the needs of active womanhood from the standpoint of comfort, hygiene, wear and figure improvement.

Our highly specialized fitted service reflects our sincere appreciation of the important relation a correctly fitted corset bears to your health, and to that perfect figure poise that gives the elusive charm of style.

## SPORTS

### ST. CLOUD VERSION OF SUNDAY GAME

P. N. Haughtelin, City Editor St. Cloud Journal-Press, Gives Report of Crosby's Action

### RANGE TEAM LEFT IN A HUFF

Writer Describes in Detail the Episode that Caused Swedie Erickson to Quit Game

The Brainerd-Crosby matched game played at Brainerd Sunday when Swedie Erickson pulled the Crosby team off the diamond and chopped the game off at the seventh inning was viewed by disinterested spectators who had come up to get a line on the teams' play. Among these were P. N. Haughtelin of St. Cloud and Charles Sylvester of Little Falls, President of the Central Minnesota Baseball League.

Keeping score in the Brainerd players' box was P. N. Haughtelin, formerly superintendent of the Crosby-Ironton high school and now city editor of the St. Cloud Journal-Press. Mr. Haughtelin may thus be considered a fair-minded man who knows range people, Brainerd people and may also be put down as an observant person as all newspaper men must be if they wish to hold their jobs.

In Monday's St. Cloud Journal-Press he heads a story on the game, "Game Ends in Dispute, Crosby Leaves Brainerd Diamond when Umpire 'Reverses'". Here is the story: With the score 3 to 1 in their favor in the seventh inning, Crosby left the Brainerd grounds yesterday afternoon when Umpire Hall changed his decision on a runner at third base, thus forfeiting the first game of the season between Central Minnesota League contestants when it was apparently safely tucked away in their pockets.

The grand exit came in the seventh after Belfy was safe on an error by Middlebrook and had taken second when Stallman walked. Molstad hit a high foul back of first which Klein gathered in. Belfy held second until the catch was made and then broke for third. Klein made a perfect peg to third catching Belfy off the bag by fifteen feet. Middlebrook however, made no attempt to tag the runner who, apparently surprised by his negligence, came into the bag standing up.

The "umps" seeing the runner caught so far off the bag, waved him out and then called him safe when he struck the base unmolested. Captain Erickson of the Rangers took exception to the reversal of decision and called his team off the field.

Yesterday's game was a practice affair, the official opening of the season being scheduled for Decoration Day.

Owing to the lack of space, the summary will be held until tomorrow.

### TRIPLE PLAY UNASSISTED

Verndale Player's Feat is Surprise in Staples-Verndale Game Sunday

The game at Staples between Verndale and Staples was marked by a triple play unassisted made by Vern Pettit, ball player well known in Brainerd and on the Cuyuna iron range. Pettit raked in a hot straight line drive over second, jumped on the bag for a second out, ran to third, tagged the bag before the player beating it for home plate had time to reverse.

Verndale and Aitkin are anxious to join the Central Minnesota Baseball League and Verndale wired a query about entrance conditions.

### RESULTS ON THE DIAMOND

**American Association.**  
St. Paul, 8; Minneapolis, 2.  
Columbus, 5; Louisville, 4.  
Indianapolis, 2; Toledo, 0.  
**American League.**  
New York, 7; Cleveland, 0.  
Detroit, 6; Washington, 0.  
**National League.**  
Philadelphia, 10; St. Louis, 3.  
Boston, 2; Pittsburgh, 1.  
Cincinnati, 6; New York, 4.  
Chicago, 3; Brooklyn, 1.

### Many Joys.

"Your wife says the engine makes such a noise that you can't hear anything she says to you." "Yes, motoring with a car like mine has many advantages." — Louisville Courier Journal.

### Label for Poison Bottles.

Perhaps the simplest of all devices for protecting people from taking doses from poison bottles by mistake is the sandpaper label. The actual label with usual skull and crossbones is pasted on a piece of sandpaper large enough to go all round the bottle, so that when you take up the bottle in the night, no matter how dazed from sleep you may be, rough, unfamiliar feel of the sandpaper rouses you and you recognize at once that the bottle contains poison of some description. The printed label will tell the kind of poison in the bottle.

### ANGLING TRAPSHOOTERS

Men Famous as Trapshots are Enthusiastic Fishermen. Some Having Fishing Preserves

(By Fred E. Pond, Editor of the American Angler)

The rod and gun form a perfect combination for the sportsman's pleasure.

It is a fact proved by research that even the most enthusiastic anglers are as a rule fond of either field or target shooting, and the fishing tourist usually carries a shotgun. Many a delightful hour is spent "between bites," or when the fish will not bite, in tests of skill with the hand trap and flying targets.

Reversing the order, and referring to the gun and rod comparatively few field sportsmen will be found who care nothing for fishing. This fact is strikingly illustrated among devotees of trapshooting. Not only the ordinary trapshooter, but the men of mark, those who have achieved fame nationally in this branch of sport, take to the rod as a duck takes to water.

In quite a number of cities the trapshooting season does not start until after the fishing season concludes, or vice versa. The trapshooting tournaments at the resort hotels are arranged in such a manner that in the early squads and get away for those who desire to fish can shoot practically an entire day's fishing. Programs arranged this way meet with approval.

Probably the greatest angler among the trapshooting fraternity is Rollo Heikes, of Dayton, O. He won the Grand American Handicap at clay targets the first time it was held. Before that time and since he won many shooting titles, but as much as he likes the shooting game, "Pop" will be found at his "bass farm" at Pearl Beach, Mich., every summer.

A. C. Connor, of Springfield, Ill., for many years the president of the Illinois State Sportsmen's Association, a great shot and a student of gun practice, owns a fine fishing preserve on the Illinois River and devotes a great deal of time to the finny tribe.

"Big Four" Can Fish, Too

Tom Marshall, of Chicago, one of the "big four" of the early days of

trapdom, and captain of the victorious All-American trapshooting team that toured the British Isles in 1901, is a keen angler and has cast his lines in every section of the United States, Canada and Mexico. Marshall's favorite fishing spot is in the Mississippi River, near Keithsburg, Ill.

Fred Gilbert, of Spirit Lake, Ia., another of the "Big Four," a champion trapshot for a generation, has been a lover of fishing ever since he was old enough to handle a rod and line. He is a skillful caster. Gilbert never tires telling of their catches—and the ones they didn't catch.

William R. Crosby, of O'Fallon, Ill., another of the famous "Big Four," and high gun on all the All-American team of 1901, has a prime penchant for piscatorial pursuits. He prefers to catch a big fish rather than a big catch of small fish.

"Jim" Head, of St. Louis, for years known as a skilled trapshot, has fished extensively in the waters of the South and West, and enjoys the sport so much that he wrote a description of fishing, "Through the Heart of the Ozarks."

Jay Graham, of Ingleside, Ill., who won the amateur trapshooting championship in the Olympic games in Stockholm, in 1912, is one of the best bait casters and one of the most enthusiastic anglers in America. He likes angling for fresh-water game fish best.

T. E. Doremus, former president of the Interstate Trapshooting Association, and now the general manager of the du-Pont interests in the Far East—address Shanghai—is as enthusiastic with the rod as with the gun. Before leaving for China "Ted" was an active member of many fishing clubs.

Other well-known trapshooters who are enthusiastic anglers are Jay Clark, of Worcester, Mass.; Walter Clarke, of Boston; J. A. R. Elliot, of Kansas City; Jack Fanning, Edward Cave, C. W. Billings, of New York; Chan Powers, Decatur, Ill.; E. W. Tripp, of Indianapolis, Ind., and Edward Banks of Wilmington, Del.

### Full Directions.

"Can you tell me where Mrs. Clark lives?" I asked. "Sure," answered the little fellow, "Just go down this street to the next corner, turn to the right, and stop at the first house where there's a bull dog."

## Dispatch Want Ads

## The Advertisements Have Something to say to You

If a merchant or manufacturer could gather 5,000 or 10,000 or 100,000 prospective buyers into a large auditorium and talk to them daily—by word of mouth—he would have no need of advertisements. But he cannot.

So he puts his words in type and talks to these same prospective buyers each day in the printed messages that you know as advertisements.

In this newspaper today you will find many such personal messages from merchants and manufacturers.

Some are large and some are small. They cover a wide range of subjects. They are worthy of your careful reading.

No merchant or manufacturer would spend his good money advertising if his merchandise were not of good quality and fairly priced. It wouldn't pay!

Don't miss the advertisements. They'll save you money.

ADVICE IS THE MOST WORTHLESS COMMODITY IN THE WORLD. THOSE WHO MIGHT PROFIT BY IT DON'T NEED IT, AND THOSE WHO DO NEED IT WON'T PROFIT BY IT--IF THEY COULD, THEY WOULDN'T NEED IT.
